- Enhanced Aesthetics
- Enhanced Aesthetics
- Faceplates supplied with blanks
- No.3 cabling system by market share, as reported by BSRIA

Product Overview

The Excel Office Range brings style and enhanced aesthetics to any Excel installation, thanks to it's curved plate finish and built in labelling fields. The portfolio includes Category 5e and Category 6 Low profile modules allowing installation in shallow back boxes and dado trunking. Additionally an angled keystone shutter is available that accepts the full range of Excel Category 5e, 6 and 6ᴀ keystone jacks. The Single and Double Gang faceplates are each supplied with two half (12.5 mm wide) blanks. In the case of the Single Gang Faceplate this allows a single jack or shutter to be mounted centrally in the aperture. The two half (12.5 mm wide) blanks supplied with the Double Gang Faceplate allows spacing options for mounting three jacks or shutters in the faceplate.

The range is available in Office White or Charcoal Grey. These two colour options permit the assembly of the telecommunication outlets to contrast with the wall finish if required to comply with the Equality Act 2010 and Part M of the Building Regulations. As all of the components are available in Office White & Charcoal Grey the telecommunications outlet can comprise of any combination:

- White Shutter / Module & White Faceplate
- Grey Shutter / Module & White Faceplate
- White Shutter / Module & Grey Faceplate
- Grey Shutter / Module & Grey Faceplate

Office White	Charcoal Grey
